\$94,786.90 School Money.

It might be news to the good, honest people of Pemiscot county to know that not all of the money in Pemiscot county has been stolen, and that the county is not "flat broke." The county has \$94,786.90 school fund money loaned out on good security, and this is not counting interest and compound interest, which would amount to considerable. There are 155 loans, which are all secured by real estate mortgages. No school fund loans have been made within the past twelve months. This, with the \$300,000.00 assets of the Pemiscot County Bank, when collected, will go a long ways towards putting Pemiscot county on "easy street," and it only requires a little time and patience. No Pemiscot county is neither broke nor bankrupt, and will not be it. Old Walker, Ben Allen, and their gang of anarchists can be held in check.

News of a shooting scrape which occurred on Franklin's "Big Lake Farm" yesterday afternoon, reached this city this morning. Someone seems to be industriously spreading the rumor that the lake was never surveyed and is still government property and subject to homestead entry, and that the Tyler Land and Timber Company has no title to it. Believing those rumors, several people have "squatted" on the lake and staked off homesteads, among the number being Charles Kirk. Yesterday afternoon while laying off his line Kirk and another squatter had trouble over their lines, and the other man, whose name we are unable to learn at this time, was quite seriously shot by Kirk. The American Adding Machine

The Latest Adder

Costs But \$35

See our exhibit—ask for 10 days' trial

Here is a new price on a complete Adder. On a machine that is rapid, full size and infallible.

The very latest machine, built by men who know, in one of the largest metal-working shops.

It is an individual Adder, to be placed on one's desk, close to one's books and papers. To take the place of the central machine requiring skilled operators.

It is also intended for offices and stores where costly machines are a luxury.

The price is due to utter simplicity, and to our enormous output. Seven keys do all the work.

Each copied number is shown up for checking before the addition is made.

The machine will add, subtract and multiply. With very slight practice any one can compute a hundred figures a minute and the machine never makes mistakes.

Countless offices, large and small, are getting from these machines the highest class of service.

Now we make this offer so that offices everywhere may learn what this machine means to them.

Ten Days' Test

We will gladly place in any office one American Adder for a ten days' test.

There will be no obligation, and charges will be prepaid.

Compare it with any non-lister—even the costliest. Let anyone use it. See if any machine can serve better than this.

Just send us this coupon, and we will send the machine.

Please use an American Adding Machine or ten days' free trial.
